

PRESS COMMUNIQUE

Metro Express Ltd Operations: Important Information for Passengers

Metro Express Ltd wishes to inform all our loyal passengers and the public at large, that as from Friday 30 July 2021 onwards, there will be some changes in operations when travelling.

As previously announced, our Contractor Larsen & Toubro is currently implementing Enabling Improvement & Integration works at Port Louis along the light rail network. Consequently, the Metro Express train frequency will be adjusted to every 20 mins instead of 15 mins, while ensuring smooth running of the operations. Please note that our Operation Hours will remain **unchanged** from 6 am to 7 pm daily.

Metro Express Ltd would advise our valued customers and the public at large to **check train service details at their railway stations and plan their journey ahead.**

Our Metro Express Staff are working tirelessly to maintain a high level of service for our passengers.

For more information, please contact Metro Express Ltd staff at stations or call the hotline on 86001. Stay tuned for any further updates on our Facebook Page, LinkedIn and Website.

We thank you for using Metro Express Services and wish you a pleasant journey.

Thank you.
