

METRO EXPRESS LIMITED

Vacancy – Post of Network Administrator

The **Metro Express Limited (MEL)** is a registered Mauritian Company wholly owned by the Government of Mauritius and the Company is responsible for the developing, financing, constructing, operating and managing the Metro Express Light Rail System in Mauritius.

We are looking for a highly motivated and proactive individual to join our team as **Network Administrator** to support the IT department and to report directly to the IT Manager. You will be excellent at embracing change, identifying not only known and unknown risk but also new and untapped opportunities. We are also looking for an agile mindset to drive change, you are at the forefront ready to transform and capitalise on risk.

The ideal candidate will be inquisitive self-starter, want to be intellectually-stimulated, and be driven to continuously improve, and expand their knowledge and skills. If you can confidently demonstrate that you meet the criteria we are looking for, please send us your application.

A. Qualifications

Candidates shall have the following attributes:

- a) Possess a relevant bachelor's degree in Engineering (Computer Software/Computer Systems/Electronic)/Computer Science or a closely related field from a recognised University or an equivalent qualification acceptable to the Board of MEL;
- b) A minimum of 3 to 5 years' proven post qualification experience in network administration with previous experience with switches and routers;
- c) Any additional relevant certification (Allied Telesis and Cisco – CISSP/CCNA/CCNP) will be considered an advantage;
- d) Excellent knowledge of best practices in management, control and monitoring of computing and server infrastructure;
- e) Experience within a controlled/compliance based environment with ability to create network diagrams and documentation for design and planning network communication systems;
- f) Proven technical experience with firewalls, VPN, wireless network, troubleshooting, and problem resolution is a must;
- g) Familiarity with backup and recovery software and methodologies combined with strong analytical skills and accurate records keeping;
- h) Strong interpersonal skills to assist non-technical individuals with complex technical issues, creative problem-solving skills, and ability to learn new technologies quickly and adapt/cope with fast-paced environment;
- i) Possess good communication skills (both verbal and written), organisational skills and be available to work outside normal hours whenever required.
